Kyanize FLOOR FINISH

Eight Beautiful Colors

—perfectly blended with the varnish

MADE
IN
CANADA

Full Imperial Measure

One operation—that's all. Take a can of Kyanize Floor Finish (any color, Light Oak to Dark Mahogany) and a good brush—apply without stirring. Before your eyes, old furniture disappears. In its place you have a handsome ornament. Stained and varnished in a single operation.

Kyanize Floor Finish, made to endure abuse on floors, is, for that very reason, ideal for furniture and woodwork as well.

Waterproof—of course—and glossy heels cannot scratch it white.

Our bottle, "The Working Horse," sends your parcel request. It's free for the asking but its extensive colored illustrations may leave the home-bound requester too dumb. Write it down the name of the nearest Kyanize Dealer.

Exide

MADE IN CANADA
BATTERIES

Battery Locomotive vs. Old Blind Mule

Make sure your farm plant battery is an Exide. Most of them are.

When you were a child you were told of mules that spent their lives down to mules. About a while these hapless creatures went blind from hauling coal cars in perpetual darkness.

These times are rapidly passing. Progressive mines are installing Exide locomotives, propelled by Exide Batteries that do more work than an army of mules.

In just the same way, in industrial plants, Exide Batteries give their power to colorless trucks that keep men from being heads of barren.

It is through experience in making powerful batteries for every kind of purpose that such a rugged Exide is possible for starting and lighting your automobile. You will find the Exide a sensible economy because it lasts so long, and it stays in your car, not in the repair shop.

You have a right to a powerful, dependable, long-lasting battery. Look for an Exide on the new car you are planning to buy. In replacing the battery in your present car, insist on an Exide and if you have any trouble getting one, write to us or our nearest district distributor.

HONORABLE FINANCING

THERE'S no finer record of honorable financing in Canada than that of the Bell Telephone Co. of Canada.

Not a share of bonds or preferred stock has ever been issued.

Most of the Company's shares have retained a premium - more than 50% over par - and many of the premiums have been returned to plant and equipment.

Dividends at the rate of 9% have been paid for 28 consecutive years.

Price at market to yield about 7.50%.

Telephone or telegraph your orders at our agency. Write for further particulars if desired.
